THREE PILLARS THAT FORM OUR ETHOS

Our Focus, Our Core, Our Expertise and Our belief

Equity = Partnering – Partnering with good companies excites us and we believe our clients will also be delighted by partnering with good businesses/ concepts. Equity can help you reach financial goals even when you start small. It beats inflation and can compound money at a higher rate leading to wealth creation.

Most valuable asset, critical for investment management

Trust grows over time and meets expectations. Single defining factor, without trust no relationship in the world is sustained. Not withstanding the importance of performance, when clients invest hard-earned money into equities, it is “Trust” that gives peace of mind.

Only medium to communicate our dedication and inculcate trust

The other two pillars be expressed only through our services. Service standards and Performance culminate into Trust

INVESTMENT APPROACH

INVESTMENT CRITERION

Acquire scalable businesses with professional management, strong financials and available at compelling valuations

Growth Potential

Historical Volume growth, Revenue growth expectation, Margin expansion, Expense decrease (as a % of revenue), PAT growth expectation

Management Capabilities

Track record of management commentary and achieving guidance, corporate governance, rational and trustworthy management, execution experience, deep domain understanding

Strong Financials

Zero debt or high-interest coverage, contracting working capital cycle, Improving turnover ratios, historical ROE trend, dividend pay-out ratio.

Available at compelling valuation

Comparing valuation metrics (such as P/E, PEG, EV/EBITDA, P/B, DCF, and Replacement cost) with other players in the same segment and benchmark indices. What premium are we paying over the intrinsic value of the company?

PMS PROCESS

1

Stock Selection

Stock selection is done after analysis of financials and due diligence as per Care PMS investment criterion. Generally, we invest only in dominant player in a segment

2

Portfolio construction

Portfolio construction is done to comply with controls such as individual stock exposure and sector exposure limits are observed. Diversify between growth ideas, turnarounds, and value buys

3

Portfolio review

Portfolio review includes a quantitative review of portfolio holding, supervision, and monitoring to align the portfolio with investment team directives

4

Exit & Replace

Exit is warranted when the stock price appreciates to its fair value or reaches our target or when there is a change in business fundamentals. Replacement is warranted on the Exit of an existing portfolio company or the availability of an alternate investment with superior fundamentals and valuations

RISK MITIGATION

Disproportionate Risk-reward

A detailed analysis of probable downside corresponding to probable upside is done before adding it to the portfolio

Diversification

While individual client portfolios that we manage are fairly concentrated. We do diversify portfolio companies into growth, turnaround, and value buys

Restriction on Single Sector/company

Investment into the sector and each company is capped in order to reduce concentration risk

Continuous Monitoring

Real-time monitoring of any news or developments in portfolio companies. Quantitative review of individual portfolios as a part of portfolio rebalancing exercise.

WHY CARE PMS

- Focused on one asset class - Equities
- Single line of business - Portfolio Management Service only
- Selection of companies based on fundamental merits
- Individual portfolios managed with restrictions
- Multiple Investment strategies based on client's risk profile
- Dedicated team with easy approachability
